Mayor's Message

On behalf of City Council, I am thrilled to introduce our strategic plan. I would like to start by acknowledging that the City of Port Alberni is located on the unceded traditional territories of Hupacasath and Tseshaht First Nations. And while acknowledging this protocol, we believe it's important to take a moment to really appreciate that fact. This strategic plan, our path forward, involves continued respectful partnering with local First Nations and includes specific action toward ongoing and meaningful reconciliation.

During the development of the City's 2019 – 2023 Strategic Plan, Council explored many possible paths to building a strong, successful Port Alberni. Through our discussions, we have elected to focus on five key areas:

- ▶ Responding to demographic change/ improving quality of life
- ▶ Enabling the new economy
- ▶ Providing and maintaining quality services
- ▶ Championing environmental leadership
- ▶ Fostering a complete community (safe, healthy and inclusive)

Council acknowledges that much of the work done and services provided by the City are not specifically mentioned in this plan. The day-to-day operations, services, and programs offered by your local government, largely continue regardless of local elected officials. Outside of that day-to-day, represents our opportunity. Our opportunity to make genuine and meaningful improvements to the quality of life for those who live in our community. That is the work, and intent, of this strategic plan.

Like so many citizens, our Council members love this community. We have been entrusted the task of envisioning Port Alberni's path to a brighter future. We are honoured to accept that responsibility, and we are committed to acting in the public's best interest at all times.

This is an incredibly exciting point in time for the City of Port Alberni. We believe the next few years will be a transformational phase in our story. Let's come together and make this journey a success for today's generation and the many generations to come.
